**Radiator components**

- Power switches
- Thermostat knob
- 9-section case
- Wheel
- Compartment for cord
- Handle
- ON/OFF button for fan heater
- Fan heater

Safe use rules

- Read the operating manual carefully to use the heater correctly.
- In order to avoid the risk of electric shock:
 - Disconnect the plug coupler from socket coupler if the heater is not used.
 - Take care the heater is not exposed to ingress of water or high humidity. Do not turn on the radiator if its surfaces are wet.
 - Do not use the heater with damaged cord or with other damages.
 - Attend to children if stay around the activated heater.
 - Ensure free place near heater: sides - 20 cm, top - 50 cm.
 - Disconnect the heater before the cleaning.
 - While disconnecting the power cord, do not pull out the plug from socket when taking the cord. Hold the plug.
 - Section surface is hot that's why do not touch the heater with hands. Contact only with buttons.
 - Do not dry the wet cloths and etc. on the surface of control panel as it can damage the thermostat.

SPECIFICATION

Supply voltage: 220-230V~50 Hz
Maximum power: 2000 W
Fan heater power: 500 W

Assemble

- Turn the case.
- Place two U-clamps between the first and second section on each side of radiator.
- Insert the clamps into openings on plates.

OPERATION

1. Turn on the heater.

- Make sure that there are not any inflammable or easy-to-deform objects at the distance of one meter.
- Do not cover the heater.
- Voltage indicated on the heater marking should comply with the voltage in your electrical network.
- While turning the thermostat clockwise, set it in maximum position. Press two switches when setting them into position "ON".
- Switch I - to set low temperature.
- Switch II - to set high temperature.
- Upon setting the necessary temperature, turn the thermostat knob counterclockwise until it is OFF. Thus the ambient temperature is maintained constantly. If it is required to set lower temperature and save electric energy, set one of the switches to the position "OFF".
- You can use the in-built fan heater to heat the room quickly. Press ON button of fan heater at that the light indicator is illuminated. Press the button again to turn off the fan heater.

The manufacturer reserves the right to change heater specifications without preliminary notification.

SERVICE TIME OF HEATER IS MIN. 5 YEARS.**Guarantee**

- Details regarding guarantee conditions can be obtained from the dealer from whom the appliance was purchased. The bill of sale or receipt must be produced when making any claim under the terms of this guarantee.

OPERATION

- Turn on the heater.
- Branches the apparatus to the EMC-Requirements as laid down by the Council Directive 89/336/EEC and to the Low Voltage Regulation(73/23 EEC)

OPERATION

- Branches the apparatus to the EMC-Requirements as laid down by the Council Directive 89/336/EEC and to the Low Voltage Regulation(73/23 EEC)

BETRÄGT NICHT WENIGER, ALS 5 JAHRE

Außerordentliche Bedingungen der Gewährleistung kann man beim Dealer, der diese Geräte verkauft hat, bekommen. Bei beliebiger Anspruchserhöhung soll man während der Laufzeit der vorliegenden Gewährleistung den Check oder die Quittung über den Kauf vorzulegen.

Das vorliegende Produkt entspricht den Forderungen der elektromagnetischen Verträglichkeit, die in 89/336/EWG-Richtlinie des Rates und den Vorschriften 73/23/EWG über die Niederspannungsgeräte vorge sehen sind.

DIE LEBENDAUER DES GERÄTES BETRÄGT NICHT WENIGER, ALS 5 JAHRE

Le présent appareil satisfait aux exigences de compatibilité électromagnétique en vertu de la directive 89/336/EEC du conseil de l'Europe et la prescription 73/23 EEC pour l'appareillage de basse tension.

Ce produit correspond ai requisi de compatibilité électromagnétique de la directive 89/336/EEC du Conseil Europe et la réglementation 73/23 CEE sur les appareils de basse tension.

Ce producto corresponde ai requisitos de compatibilidad electromagnética de la directiva 89/336/EEC del Consejo de las Comunidades Europeas, y las regulaciones 73/23 CEE para los aparatos de bajo voltaje.

Este producto cumple con las normas de compatibilidad electromagnética de la directiva 89/336/EEC del Consejo Europeo y la Directiva 73/23 CEE sobre aparatos de baja tensión.

Questo prodotto corrisponde ai requisiti di compatibilità elettromagnetica della direttiva 89/336/EEC del Consiglio Europeo e dalla Direttiva 73/23 CEE sugli apparecchi di bassa tensione.

Este producto cumple con las normas de compatibilidad electromagnética de la directiva 89/336/EEC del Consejo Europeo y la Directiva 73/23 CEE para la aparatura de baja tensión.

Este producto cumple con las normas de compatibilidad electromagnética de la directiva 89/336/EEC del Consejo Europeo y la Directiva 73/23 CEE para la aparatura de baja tensión.
