Chasing victories

This durable gaming backpack has a sizable well-padded laptop compartment for up to 17.3" laptops. Next to this compartment, the Hunter comes with five dedicated compartments in which you can secure your gear. Safely transport your keyboard, mouse, headset, tablet and all your other peripherals: you are always fully equipped to hunt down your in-game enemies.

Undercover

Apart from the main compartments, the Hunter has two easy-access side pockets as well as a hidden back pocket with zipper to store your valuable belongings such as your passport and phone. For further protection, the backpack has a water-resistant cover stored away in one of the organizational pockets, ready to give your backpack cover when it starts raining.

Comfort all the way

The road to success can be long, the Hunter makes it as comfortable as possible with the adjustable chest buckle, soft padded shoulder straps and ventilated back panel. The headphone cable pass-through makes sure you will travel whistling to the latest music.
