PENDANT STATIONS

ATTENTION

Before any installation or maintenance operation, disconnect the power supply to the system. Before restoring the power supply, make sure that all connections to the device have been made correctly. Giovenzana International B.V. disclaims any responsibility for any damage to things and people caused by non-compliance with the rules described here.

The push buttons are available in two versions coded as shown in the pictures above.

The pendant stations code scheme follows the push button installed (PLB.../PLBN...).

The pictures in this manual are for illustrative purposes and are valid for all the products of this series.

Before use, read this booklet carefully to acquaint yourself with the features of the product. This booklet is an integral part of the product and therefore must be kept until the product is dismissed.

Giovenzana International B.V. reserves the right to change the features and data shown in this document at any time and without notice. This document cannot therefore be considered a contract with third parties.

Any improper installation or any tampering of the device may cause serious personnel injury or property damage, therefore, the installation and maintenance must be performed by specialized and authorized personnel.

The use of this device is not allowed in environment with a potentially explosive atmosphere or in presence of corrosive substances and in salt spray.
