

GLOVES HITCH PROFESSIONAL 200

SIZE L

RELIABLE GRIP TECHNOLOGIES FROM HITCH™

The problems of reliable gripping are always acute if you work with lifting equipment. Because of uncomfortable grip, device operator's hands fatigue quickly, and may be forced into additional efforts that could lead to muscle strain or other injuries. As a result, inadequate grip leads to low labor productivity and increases the chance to injuries and incidents. The gloves HITCH Professional 200 specially developed by HITCH with technology of reliable and comfortable grip will help the operator to avoid all of these problems.
