

# T-FLUSH

## ADVANCED INTERNAL TRANSMISSION CLEANER

### DESCRIPTION

Premium synthetic detergent concentrate designed to clean all oil lubricating systems in automatic and standard transmissions. Clean and aid in the removal of harmful deposits. It will not harm metals, seals, frictionals.

### BASIC BENEFITS

- Improves transmission performance.
- Reduces transmission noises.
- Allows extended and more precise clean up treatment.

### PROPERTIES

- Precisely cleans the internal transmission components.
- Safely removes varnish & sludge deposits.
- Prevents contamination of fresh oil by residues.
- Not harmful for metals, seals and frictionals.

### APPLICATION

Suitable for all types of automatic and manual transmissions and their oils.  
Ideal for use with ATF flushing machines.

### DIRECTIONS FOR USE

- Add T-Flush (300ml) to the transmission oil (3 – 9L) prior to the oil change.
- Run the car till transmission temperature is increased up to +60°C (min 10min – 20min).
- With car on lift (wheels above the ground) circulate for 10 – 20min cycling through all the gears.
- Drain the oil while still warm.
- Fill with new oil.

### TYPICALS

Physical state:	Liquid	Vapour pressure:	No data available
Color:	amber	Vapour density:	No data available
pH:	No data available	Relative density:	No data available
Melting point:	< 0 °C	Density:	0,88 g/cm <sup>3</sup>
Freezing point:	No data available	Solubility (Water):	No data available
Boiling point:	> 200 °C	Partition coefficient:	No data available
Flash point:	> 75 °C	Auto-ignition temperature:	> 236 °C
Evaporation rate:	No data available	Decomposition temperature:	No data available
Flammability:	No data available	Kinematic viscosity:	No data available
Lower explosion limit:	0,7 % Vol.	Dynamic viscosity:	No data available
Upper explosion limit:	6 % Vol.		

### PACKAGING

300 ml can (12 x 300 ml carton)
