

XA-TRAN M14

SYNTHETIC AUTOMATIC TRANSMISSION FLUID

DESCRIPTION

This is a full synthetic lubricant based on carefully selected very high quality base oils, mainly intended for all MB 7-speed automatic transmissions and NAG-V Sport transmissions. It provides excellent frictional durability and superior performance.

PROPERTIES

- Protects the compact and heavily loaded gears thanks to advanced anti-wear properties.
- Allows fuel economy by reducing epicyclic gears friction.
- Gives superior transmission response: smooth shift feel and minimizing shift time lag.
- Extends life time duration, high shear stability at hot temperature and oxidation resistance.
- Constant friction stability over lifetime ensuring perfect clutch operation.
- Prevents from shudder shifting problems.
- Excellent low temperature shifting performance

APPLICATION

This ATF is recommended for the 7G-Tronic and 5-Speed automatic transmissions of Mercedes-Benz. Due to its specific composition and characteristics, it is not suitable for other applications.

TYPICALS

Density at 15 °C	0,848 kg/l
Viscosity -40 °C	11800 mPa.s
Viscosity 40 °C	28,60 mm ² /s
Viscosity 100 °C	5,9 mm ² /s
Viscosity Index	154
Flash Point COC	206 °C
Pour Point	-45 °C
Color	Red

SPECIFICATIONS

MB: 236.10/236.11/236.12/236.14

PACKAGING

1L can (12 x 1L carton)
20L drum
60 L drum
208 L drum
