ИНСТРУКЦИЯ

РЕКОМЕНДАЦИИ ПО УХОДУ И БЕЗОПАСНОСТИ

- Сарай предназначен только для хранения вещей. Он не предназначен для проживания.
- Настоятельно рекомендуется закрепить сарай на неподвижном объекте, просверлив отверстия в полу сарая (в заранее обозначенных местах) и вставив в землю соответствующие шурупы (шурупы в комплект не входят).
- Не пытайтесь производить сборку в ветреные или холодные дни
- Периодически проверяйте сарай, чтобы убедиться в его устойчивости и ровности площадки.
- Будьте осторожны при обращении с деталями со стальными краями.
- При сборке и эксплуатации сарая используйте только те инструменты, которые указаны в руководстве пользователя.
- При сборке или выполнении любых работ по техническому обслуживанию сарая всегда надевайте рабочие перчатки, защитные очки и одежду.
- Не пользуйтесь газонокосилкой или механической косой вблизи сарая..
- Мойте сарай садовым шлангом или мягким моющим раствором. Не используйте металлическую щетку или абразивные чистящие средства, включая обезжириватели и средства на основе масла или ацетона.
- Не храните в сарае горячие предметы, такие как недавно использованные грили и паяльные лампы, а также летучие химикаты.
- Не ставьте тяжелые предметы у стен, так как это может привести к деформации.
- Очищайте крышу от скопившегося снега и листьев.
- Направление ветра является важным фактором, который следует учитывать при определении местоположения сарая. Держите двери закрытыми и запертыми, когда сарай не используется, чтобы предотвратить повреждение ветром.
- Не стойте на крыше.
- Проконсультируйтесь с местными органами власти, требуются ли разрешения на возведение сарая.

Меры предосторожности при установке

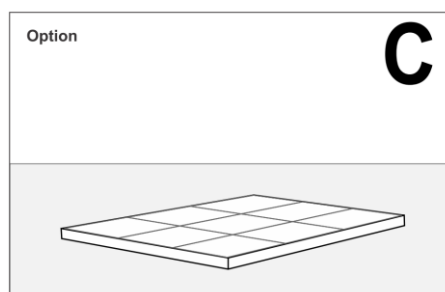

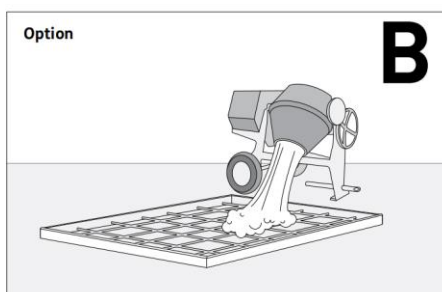

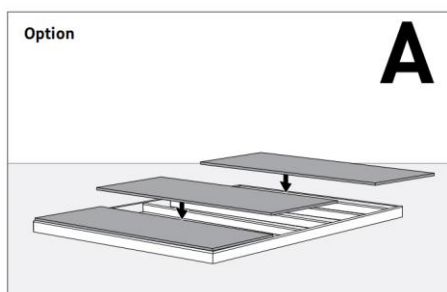

1. Подготовка площадки

Выравнивание земли.

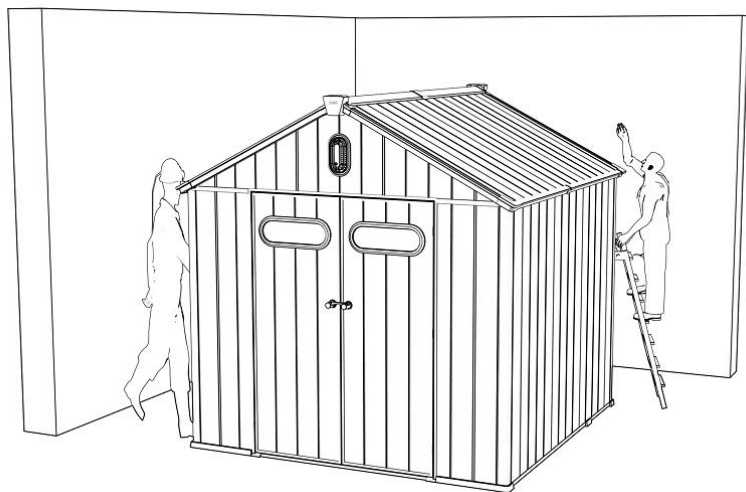

2. Сооружение основания

Рекомендуется соорудить деревянное основание или бетонное основание.
